Dr. Rick Moberly

## OBSTETRICS DEPARTMENT RE-OPENING JANUARY 2011

Dr. John Epperly

Dr. Shea Epperly

Dr. Jack Kline

Dr. Mark LeDuc

If you are pregnant, or considering having a baby, you will have to make many decisions. One of the most important is where to have your baby. Dr. April McQuillen, Dr. Paul McQuillen, Dr. Rick Moberly, Dr. John Epperly, Dr. Shea Epperly and Dr. Jack Kline are all trained in operative obstetrics and look forward to making this event as special and exciting as you hope it will be.

Our new physicians begin in July and are currently accepting obstetrics patients with anticipated due dates after January 15 (probable conception dates mid-late April). The first prenatal visit generally takes place at 10 weeks gestation. If the first prenatal visit needs to occur before our new physicians begin in mid-July, Dr. LeDuc, Mercy Obstetrics and Gynecology Clinic of Mason City (1-877-422-5100), sees patients in New Hampton the 4th Tuesday of each month and will assist with the transition of care to the local providers.
